

Footnotes

Coffeeⁱ is one of the most widely consumed beverages in the world.

Some people prefer decaffeinated coffeeⁱⁱ for the taste without the stimulant effect.

Popular brewing methods include drip filtering, French press, and espressoⁱⁱⁱ.

ⁱ Coffee was first cultivated in Ethiopia and later spread through the Arab world.

ⁱⁱ Decaffeination removes at least 97% of the caffeine content.

ⁱⁱⁱ Espresso is brewed by forcing hot water through finely-ground coffee under pressure.

Page 2: numbering restarts

There are dozens of coffee speciesⁱ, but only a few are grown at commercial scale.

Robusta is often considered to have a harsher tasteⁱⁱ than Arabica.

ⁱ Arabica and Robusta are the two most commercially important coffee species.

ⁱⁱ Robusta beans generally contain more caffeine than Arabica beans.

Page 3: numbering restarts again

Espressoⁱ is the base for many other popular coffee drinks, like cappuccino and latte.

ⁱ The word 'espresso' comes from the Italian for 'pressed out' or 'expressed'.
